Film-On Slide Agent

CODE: VIN-SO-600-F0355

Film-On is a high performance slip agent for window tinting and paint protection film (PPF), offering improved moisture distribution, easier positioning, and smoother squeegeeing. It eliminates white haze, spots, and moisture build up during drying, while significantly improving adhesion-making it a trusted companion for both window tinters and PPF installers.

**Metamark Ape PPF Slip Concentrate 1 litre**

CODE: VIN-MM-PPF-SLIP-CONCENTRATE

Metamark APE Slip Solution allows optimal glide for installation of Metamark M-PPF® Paint Protection Films. This concentrate should be diluted up to 50ml per litre of distilled water, making up in excess of 20 litres from one bottle. The measuring aid in the 1 litre bottle allows control when dispensing. The product is fully biodegradable, skin-friendly, clinically tested and pH-neutral.

**SOTT Slide-On 500ml Window Film Application Liquid**

CODE: VIN-SO-600-F02

SOTT® Slide-On Application Liquid is a concentrate that mixes easily with water to form a thin film layer when applied to glass. This layer allows window film to slide into position easily. SOTT® Slide-On Application Liquid will leave no residue, milk haze or air bubbles under the film.

**Right On Application Liquid 1 litre**

CODE: VIN-SO-600-RIGHT-ON

The SOTT® Right-On Application Liquid is a fast and effective application fluid providing easy application of self-adhesive films without air bubbles and wrinkling. Suitable for use on all wet applications, Right-On allows the film to be repositioned after initial application.

**Silver Bullet Wall Primer 5 litre**

CODE: VIN-MM-SBW-5

'Silver Bullet' Pro Wall Primer has been uniquely developed for the large format decor print application. ISA Product of the Year 2019 Winner, is now part of the Metamark range of surface preparation fluids.

Recommended for the Metamark DecorMark wall coverings range. 'Silver Bullet' Pro Primer overcomes the variability of existing wall finishes, to ensure trouble free wall graphics. It has a low odour, quick drying formula and dries clear.

Metamark M2060 Clear Medium-High Tack Application Tape

Metamark M2060 is a standard tack transparent application tape is designed to suit most sign making applications. The high visibility allows easier positioning when overlaying graphics. It is dimensionally stable and easy to unroll. It is also plasticizer resistant, suitable for wet application, and can be removed easily without leaving residue.

Can also be sold at custom cut size (minimum 50mm wide).

1220mm x 100 metres

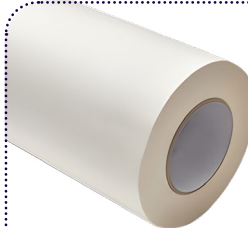

CODE: VIN-APP-M2060-CLEAR-1220

610mm x 100 metres

CODE: VIN-APP-M2060-CLEAR-610

Custom cut per millimetre high

CODE: VIN-APP-M2060-CLEAR-MM

782U Medium Tack Application Tape

TransferRite 782U is a medium tack paper application tape. This transfer tape is best for transferring medium sized graphics. TransferRite Ultra's adhesive has been specially formulated to stick to areas of exposed liner, offering excellent lay flat characteristics. This means your graphics can withstand a lot of handling during transport without the worry of tunneling or curling. 782U is backed by a premium, heavyweight paper that resists tearing during difficult installations. It is ideal for wet applications, which allow the temporary ability to reposition the graphic before ultimately sticking it in place.

Can also be sold at custom cut size (minimum 50mm wide).

1220mm x 91.44 metres

CODE: VIN-APP-782U-1220

610mm x 91.44 metres

VIN-APP-782U-610

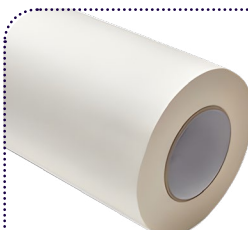

Custom cut per millimetre high

CODE: VIN-APP-782U-MM

Den Braven Zwaluw High Tack Adhesive

CODE: AFX-DBZ-HTAC-290

Zwaluw High Tack 290ml is a high-quality, single-component MS polymer adhesive with very strong initial grip, so additional support is usually not needed. It is odourless, neutral, and free of silicone and isocyanates, and cures with atmospheric moisture to form a durable rubber seal. It is suitable for bonding panels, skirting boards, windowsills, mirrors, thresholds, and insulation materials, as well as for use in metal joints, coachwork, and shipbuilding. The adhesive can be used on many surfaces without primer, including glass, coated metals, plastics, aluminium, and finished wood; however, a primer is recommended for porous surfaces.

792U High Tack Application Tape

TransferRite 792U is a high tack paper application tape. This transfer tape is recommended for small vinyl paint mask installations. It is backed with a premium, heavyweight paper that resists tearing during difficult installations and over rivets. TransferRite Ultra's adhesive has been specially formulated to stick to areas of exposed liner, offering excellent lay flat characteristics. This means your graphics can withstand a lot of handling during transportation and storage without the worry of tunneling or curling.

Can also be sold at custom cut size (minimum 50mm wide).

1220mm x 91.4 metres

CODE: VIN-APP-792U-1220

610mm x 91.4 metres

CODE: VIN-APP-792U-610

Custom cut per millimetre high

CODE: VIN-APP-792U-MM

Acrylic Acrifix 192 Glue 100gm Tube

CODE: AFX-TUBE-192-100GM

The acrylic adhesive is a clear, purplish, viscous solution of an acrylic polymer in methyl methacrylate that cures when exposed to light. Acrifix is designed for bonding clear acrylics such as PLEXIGLAS GS, PLEXIGLAS XT, and moulded PLEXIGLAS parts, and can also be used on other clear plastics including CAB, PC, and PS.

SOTT Air Release Tool

CODE: VIN-SO-100-NP-2

Air release tool in ballpoint shape with razor-sharp needle inside. Simply click on the back and the needle comes out of the shaft. Click again and the needle will retract. Ideal for film mounts where air bubbles have formed between the film and substrate. Needle is not replaceable.

**Rivet Brush**

CODE: VIN-SO-150-037

Made of stiff bristle synthetic fibre, the rivet brush for fleet graphic installers helps form flexible cut and printed vinyl over the rivet surface.

**Injection Syringe**

CODE: VIN-SO-350-220

Every PPF installer knows it: somewhere in the middle of the bonnet a big water bubble. What can you do about it? Pull off the complete and start all over again? Not at all. You don't have to! Just use a syringe with an ultrathin needle to make an invisible hole. Minimum order 10.

SPECIAL ORDER*

Injection Needle

CODE: VIN-SO-350-221

0.45 mm thick injection needle with a bevelled tip for invisible penetration. By using this syringe together with the 350-220 syringe you have the solution to suck out moisture bubbles under the PPF pull the moisture out of the bubble! Minimum order 10.

SPECIAL ORDER*

RollePro® Foam Wheel Applicator

CODE: VIN-SO-150-047

The SOTT® RollerPro® is an effective tool for installing film around rivets and applying wall films to brick or stone walls. The RollerPro® has a hard foam wheel that presses the film into and around curved or uneven surfaces.

SPECIAL ORDER*

**SOTT Heavy Duty Roller**

CODE: VIN-SO-150-201

A heavy duty, professional pressure roller mounted in ball bearings and intended for intensive use.

Wrapedge - Alcantrata Buffers

This WrapEdge buffer is designed to protect Squeegees from damage and absorb moisture in wet application situations. Allows for the squeegee to slide smoothly when applying vinyl. 1mm and 2mm thick options. Sold in two packs or in packs of 16 for 1mm, or packs of 12 for 2mm & 3mm.

1mm (2 pk)

CODE: VIN-SO-500-038-2PK

CODE: VIN-SO-500-040-2PK

3mm (12pk)

CODE: VIN-SO-500-040

Wrapedge - Alcantrata Buffer roll 20mm x 2M

CODE: VIN-SO-500-037

SPECIAL ORDER*

SOTT Protective Felt Wool Buffer

Self adhesive 100mm & 130mm buffer which will not come loose when wet. Special high quality industrial grade wool felt. Does not become "hairy" during use and is resistant to moisture and cleaning products so this felt will not come loose. The combination of wool felt with its thickness of 2mm allows an even pressure to be applied during application while the risk of scratching is eliminated.

2mm Beige 100mm

CODE: VIN-SO-500-018

2mm Beige 130mm

CODE: VIN-SO-500-019

Felt Pad 130mm Buffer

CODE: VIN-SO-150-CS-13

Felt pad in 130mm for longest durability. Designed for interior installation where a stronger resistance is required. Suitable for VIN-SO-150-CS13 squeegee.

White Felt Pad for Time Saver Squeegee

White self adhesive replacement pad suitable for use with the 150-CS65 and 150-CS100 squeegees.

650mm

CODE: VIN-SO-500-065

1000mm

CODE: VIN-SO-500-100

Protective Velours Buffers

Designed to protect squeegees from damage and absorb moisture in wet application situations. Self-adhesive; stays in place specially intended for car wrap films and soft cast film applications. Special 'felt' with an industrial grade adhesive layer that will not come loose. 1mm thick option, available sizes 100mm / 130mm wide.

1mm Black 100mm

CODE: VIN-SO-500-045

1mm Black 130mm

CODE: VIN-SO-500-046

1mm Black 100mm (5 pack)

CODE: VIN-SO-500-045-5PACK

Monkey Strips Squeegee Pads

Monkey Strips are pre-cut felt edges that are ideal for vehicle wrap installations. These durable buffers have a low friction surface that allows the squeegee to glide across the film and reduce common scratches to almost zero. Monkey Strips can be easily removed and leave little to no adhesive residue on the squeegee. Especially unique to Monkey Strips is their thinness allowing an installer to apply the film with more precision and less heat. Can be used wet.

Available in a 50 pack or a 5 pack. Please note - squeegee is not included.

Monkey Strips Felt (50)

CODE: VIN-MM-MONKEY-STRIPS-FELT-SQUEEGEE-PADS

Monkey Strips Felt (5pk)

CODE: VIN-MM-MONKEY-STRIPS-5PACK

Squeegee Pads - Metamark Monkey Wings (10) Pack

CODE: VIN-MM-MONKEY-WINGS-FELT-SQUEEGEE-PADS

Monkey Wings felt buffers that are profile cut to wrap around a 100mm squeegee to give extra protection to the corners. Monkey Wings are made from the same thin, soft, durable felt as the Monkey Strips. Boxed in 10s, in a polypropylene case. Can be used wet. Please note - squeegee is not included

Squeegee Pads - Monkey Tails (5.1M roll)

CODE: VIN-MM-MONKEY-TAILS-FELT-SQUEEGEE-PADS

High quality felt edge supplied on the roll. Monkey Tails are made from the same thin, soft, durable felt as the Monkey Strips. Monkey Tails are one long roll which allows installers to make a custom buffer for any sized squeegee. The length of the Monkey Tail is equivalent to 51 Monkey Strips or one incredibly large squeegee. Can be used wet. Each roll is 5.1M length x 32mm. Please note - squeegee is not included.

SOTT Polishing Paper 2 pack

CODE: VIN-SO-300-040

2 rolls -370mm (1'3") wide with industrial grade triple layer highly absorbent polishing paper. This paper is extremely strong and will not disintegrate when saturated with water. Soft but strong. Indispensable in every workshop.

**Lowtack Tack Rags - On a Roll (220mm x 62 sheets)**

CODE: VIN-SO-300-023

Roll of low tack rags ideal for removing all dust from any surfaces to be worked on. These rags remove dust from prints before laminating as well from windows and bodywork prior to film application. They also remove dust from metal surfaces before painting or spraying. The roll is 220mm wide and each roll consists of 62 individual sheets that can be pulled off as required. One side is slightly adhesive. Leaves no residue.

**Tack Cloth Dust Free**

CODE: VIN-SO-300-022

10 pack of a slightly sticky cloth. Perfect for removing dirt and dust of window frames, cars or any area which has to be dust and dirt free before applying. Will not leave any residue behind. Contributes to a static-free surface.

**Tint Off Window Remover**

CODE: VIN-SO-600-T0

Removing from car windows can pose quite a problem. Tint-Off has been developed especially for this purpose. Apply this soluble remover to the existing, cover with a piece of old or liner. After a few minutes, remove the piece of old or liner and the old window will be released with it. 1 litre.

**DUNLOP® 200mm Flexible Squeegee**

CODE: VIN-SO-150-052

The perfect squeegee for wet mounting self-adhesive vinyl and window film on flat glass. It has an arm and handle that is very sturdy and a blade that is quite flexible. It is ideal for mounting etch and window films onto flat glass

**The Hustler**

CODE: VIN-SO-150-090

4 in 1 squeegee that is cleverly designed shape to reach everywhere. The different sides make it extremely practical to do various jobs with it. Push wrap under rubbers of window frames or around roof racks without damaging the film.

Perfect for use as a cleaning tool, wrap a cloth around the squeegee and use it to easily get into any small narrow place that area.

It can also be used as a cutting guide squeegee for window frames. As the squeegee is smooth and solid, it is also good to use when installing rigid films such as architectural films.

You can use the rounded side of the Hustler to guide and turn the in a sharp corner without damaging the film.

Metamark IsoPropanol (IPA) 1 litre

CODE: VIN-MM-IPA-1L

Metamark isopropyl alcohol (IPA) is an essential and effective way to clean any remaining grease, oils, or adhesive left on your vehicle before vinyl application. Isopropanol dissolves a wide range of compounds and evaporates very quickly, leaving virtually zero oil traces. 1 litre bottle, spray lid included.

Metamark Surface Cleaner

Metamark surface cleaner cuts through mild grease or silicone, road film and other contaminants to leave a highly cleaned vinyl-ready surface. 1 litre spray bottle & 5 litre refill available.

1litre

CODE: VIN-MM-SURFACE-CLEANER-1L

5 litre

CODE: VIN-MM-SURFACE-CLEANER-5L

Metamark Adhesive Remover

Metamark Adhesive Remover is a powerful cleaner formulated for effective removal of adhesive, tar, grease, and other grime that is averse to vinyl application. 1 litre spray bottle & 5 litre refill available.

1litre

CODE: VIN-MM-ADHESIVE-REMOVER-1L

5 litre

CODE: VIN-MM-ADHESIVE-REMOVER-5L

Microfibre Cloths Mixed 3 pack

CODE: VIN-MM-MICROFIBRE-3PACK

High quality micro-fibre soft knit cloths, perfect for vehicle detailing and for use with surface preparation of vinyl graphics. Lint free 300gsm cloths with soft hem. Use the various colours to identify which cleaners are being used to avoid cross contamination. Finish with a white cloth to ensure all debris are removed. Machine washable at 40°.

3-piece pack, 400mm x 400mm, 30% Polyamide, 70% Polyester

QuickBase

CODE: ACC-QBS3-704

The QuickBase is a 4mm black mild steel clamping stand base designed to hold rigid panel materials from 2mm to 20mm thick. Installation is quick and straightforward - simply tighten the knurled head screw provided to secure the panel in place.

Alumaluxe Standoff Mounts (2 pack)

CODE: ZAMX-SIL-2PK-MOUNT

Anodised silver matt aluminium standoffs designed to create a modern floating shadow effect when mounting panels or signage, supplied as a convenient 2 pack and suitable for both internal and external use, each standoff measures 13mm in diameter with a 19mm wall distance and features an M8 thread, and the set includes fixing screws and wall plugs for straightforward installation.

SOTT Backing Paper Liner Cutter & Spare Blades

CODE: VIN-SO-100-023

Glides perfectly between vinyl and paper liner. Foot is coated so it won't stick on the adhesive side. The handle is longer than conventional slitters and provides better grip. Comes with 5 spare blades.

SOTT Spare Blades

CODE: VIN-SO-120-023R

SOTT Vinyl Cutter

CODE: VIN-SO-100-SOC

Quick and easy cutting without damaging the substrate. Fast cutting of film from a roll while it's still in the printer or cutting plotter. Fast cutting of film to size when it's already on the car.

Metamark Guardknife

CODE: VIN-MM-GUARD-KNIFE

The Metamark Guard Knife (SC-Guard) allows for easy and safe cutting of vinyl, film, stickers and adhesive tapes. The blade is protected by a steel shield, while the base has a Teflon strip to prevent scratching of the base substrate.

Metamark Guardknife Blades (5 pack)

CODE: VIN-MM-BL-GUARD

NT Cutter Backing Slitter

CODE: VIN-SO-100-024

Cut only the top or bottom layer with 6 precision depth settings. This handy slitter from NT is ideal for cutting to a specific depth with precision. Cut adhesive film without touching the backing paper/supporting material.

Olfa Professional Cutter - 45 degree

CODE: VIN-SO-100-SVR-2

The most famous professional cutter. Stainless steel holder with auto lock system. Best suited for 45 degree x 9mm blades.

Olfa Professional Cutter - 30 degree

CODE: VIN-SO-100-SAC-1

Stainless steel cutter with 30 degree angled blade for precision work. Without auto lock.

NT® Cutter Knife A300GRP Metal Grip - 9mm

CODE: VIN-SO-100-A300GRP

Featuring a metal grip, this is an ergonomically designed cutter with special click system for gradually releasing blades. For left- and right-hand use. Takes 9mm snap-off blades (45 degree or 30 degree)

OLFA® Standard Black Knife Metal Body - 9mm

CODE: VIN-SO-100-180-BLACK

A multipurpose snap-off cutter featuring a positive slide lock with a handle that is designed for control and comfort, a pocket clip, and built-in blade snapper. Ideal for light-duty cutting jobs. Takes 9mm snap-off blades.

NT® Cutter Knife A300RP Plastic Grip - 9mm

CODE: VIN-SO-100-A300R

Featuring a plastic grip, this is an ergonomically designed cutter with special click system for gradually releasing blades. More suited to light duty cutting. Takes 9mm snap-off blades (45 degree or 30 degree).

Olfa ComfortGrip X

CODE: VIN-SO-100-XA-1

Auto lock; specially intended for Excel Blade snap-off blades. This blade holder combines sublime quality with design. The ergonomic form and the black anti-slip rubber instil a feeling of confidence during use. It is also resistant to chemicals. This blade holder has been specially developed for use with the special Excel Blades; these are thinner and much sharper than the standard snap-off blades.

Olfa Rubber Insert Grip Ratchet Lock Utility Knife

CODE: VIN-SO-100-L2

If secure handling is important to you, you'll appreciate the anti-slip, ribbed rubber inset on this OLFA utility knife.

The knife's pistol shape is designed to fit comfortably in your hand, and a finger stop provides added stability. Use this utility knife for construction materials including drywall, linoleum, carpet, flooring materials, insulation, and roofing materials.

Good For: Applications such as heavy duty cutting. Takes 18mm blades.

NT Heavy Duty Knife

CODE: VIN-SO-100-L500GR

With a metal body. NT heavy duty knife with aluminium diecast grip and a special click system for gradually releasing blades.

Perfect for cutting plastics, etc. This strong and sturdy knife is ideal for cutting large areas and strips of windows, wrapping and interiors. The knife is stable and does not wobble while cutting. So, you get nice straight cuts. Takes 18mm blades.

**OLFA® Fiberglass - Reinforced Auto-Lock Utility Knife - 18mm**

CODE: VIN-SO-100-L5-AL

Sure-grip handle made of elastomer and glass-fibre-reinforced polypropylene for acid and acetone (oil) resistant. Built-in hard metal pick for multi-purpose applications. Ideal for applications such as flooring, drywall and roofing repair or replacement. Cuts carpeting, linoleum, drywall, roofing shingles and more. Takes 18mm snap-off blades.

**NT® Cutter L500GRP Heavy Duty Knife-18mm**

CODE: VIN-SO-100-L500GRP

NT® Heavy duty knife with an aluminium diecast grip and click system for gradually releasing blades. Ideal for cutting plastics, films etc. This strong and sturdy knife is perfect for cutting large areas and strips of window films and interior films. It's stable and does not wobble while cutting. Takes 18mm snap-off blades.

**OLFA® Slide Mechanism Utility Knife - 18mm**

CODE: VIN-SO-100-SL-1

The OLFA® Slide Mechanism Utility Knife is a two-way heavy-duty cutter with a professional strength stainless steel blade for the toughest of cutting jobs. Easily change the cutting depth using just your thumb. The knife is preloaded with an eight-segment blade, so you'll have to change the blade eight times less often. Takes 18mm snap-off blades.

**OLFA® Extended Reach Ratchet-Lock Utility Knife - 18mm**

CODE: VIN-SO-100-XL-2

When you want to put a little distance between yourself and what you're cutting, reach for this extended length utility knife. The knife's blade channel extends the full length of the knife, providing the stability needed for the extra length. Takes 18mm snap-off blades.

**SOTT Snap Office Blade Container**

CODE: VIN-SO-120-DB

This handy knife container is a must for any workshop. Simply and safely slide all old and used blades into this container. The container can be opened at the bottom to empty it. 25mm slot.

**OLFA® Safety Blade Disposal Can**

CODE: VIN-SO-120-DC-3

For 9 & 18 mm snap-off blades. Enjoy one-touch blade disposal while working on projects. This OLFA® blade disposal can has a tambour door that's secure enough to stay shut, convenient enough to open when you're ready to use it. The pocket-sized can fits into a desk drawer, toolbox or workstation and is perfect for construction and industrial worksites, garages and sign shops. Convenient canister design.

**NT 30 degree Blades 50 pack**

CODE: VIN-SO-120-BD-100

This super sharp 30° blade is ideal for weeding and removing air bubbles during application.

**Olfa 30 degree Blades 10 pack**

CODE: VIN-SO-SAB-10

10 Blade pack with 7 Snap-off edges per blade. Standard-duty acute angle blade for use in a multitude of applications. This blade made from high quality carbon tool steel is produced using OLFA's precise multi-step production process for unparalleled sharpness and superior edge retention.

**Olfa 9mm Silver Snap Off Blades (50 pack)**

CODE: VIN-SO-AB-50

High quality multi-use blade with superior edge retention. Standard-duty 59 deg edge angle, snap-off blade ideal for general crafts, cutting wallpaper, etc. The blade made from high quality carbon tool steel produced using OLFA precise multi-step production process for unparalleled sharpness and superior edge retention. Long lasting, durable snap-off blade - a new sharp edge with each snap.

Olfa 9mm Silver Snap Off Stainless Blades (50 pack)

CODE: VIN-SO-120-AB-50S

High quality stainless steel blade for use in moist environments. These blades have been designed not to scratch glass, and are ideal for use in moist environments (wallpapering, windows, etc.) where rust is a concern. This blade made from high quality steel is produced using OLFA precise multi-step production process for unparalleled sharpness and superior edge retention. Long lasting, durable snap-off blade - a new sharp edge with each snap. 13 cutting edges per blade with a 59 deg edge angle.

**OLFA® 9mm AB10 Stainless Steel Snap-Off Blades (10 Pack)**

CODE: VIN-SO-120-AB-10

The OLFA® 9mm Stainless Steel Snap-Off Blades (AB-10S) are premium rust-resistant replacement blades featuring 13 snap segments per blade. Designed for standard-duty precision, they are perfect for use on glass or delicate surfaces and in wet, damp, or outdoor environments

**OLFA® 9mm ABB10 Black Ultra-Sharp Snap-Off Carbon Blades**

Ultra-Sharp blades made from high quality carbon tool steel are developed using special double honing process for extreme sharpness and are 25% sharper than standard-duty OLFA® blades. A new sharp edge with each snap with 13 segments per blade. Long lasting, durable blade. Exact 59-degree edge optimizes cutting power and minimizes blade breakage. 10-piece or 50-piece packs available.

10 pack
CODE: VIN-SO-120-ABB-10B

50 pack
CODE: VIN-SO-120-ABB-50

**OLFA® 25mm HBB-5B Excel Black Carbon Blades Ultra Sharp (5pack)**

CODE: VIN-SO-120-HBB-5B

ExcelBlack ultra-sharp premium extra heavy-duty snap-off black blades, exclusively designed for maximum cutting performance, are ideal for application where superior sharpness is required. HBB blades made from high quality carbon tool steel are developed using a special double honing process for extreme sharpness and are 25 % sharper than extra heavy-duty HB blades. Long lasting durable snap-off blade-a new sharp edge with each snap. 7 cutting edges per blade.

**OLFA® 18mm LB-10 Silver Carbon Snap-Off Blades**

This blade made from high quality carbon tool steel is produced using OLFA's precise multi-step production process for unparalleled sharpness and superior edge retention. Long lasting durable snap off blade - a new sharp edge with each snap. 8 segments per blade. Available in a 10 pack or 50 pack.

10 pack
CODE: VIN-SO-120-LB-10

50 pack
CODE: VIN-SO-120-LB-50

**OLFA® 18mm LBB-10 Ultra Sharp Black**

Ultra-Sharp blades made from high quality carbon tool steel are developed using special double honing process for extreme sharpness and are 25% sharper than standard-duty OLFA® blades. A new sharp edge with each snap with 8 segments per blade. Long lasting, durable blade. Exact 59-degree edge optimizes cutting power and minimizes blade breakage. 10-piece or 50-piece packs available.

Carbon Snap-Off Blades (10 pack)
CODE: VIN-SO-120-LBB-10

OLFA® 18 mm Excel Black Ultra Sharp (50 pack)
CODE: VIN-SO-120-LBB-50

**Snitty Sheet Slitter Safety Cutter**

CODE: VIN-MM-SN1

The Metamark Safety Cutter (AC-SN1) is a compact handy tool for quick safe cutting of vinyl and paper. The blade is shielded by the unique design, and replacement blades (AC-SNBL1) are available in packs of 5. This pocket sized tool is an ideal addition to any workshop or for use around the print production area.

**Snitty Sheet Slitter Safety Blades (10)**

CODE: VIN-MM-SNBL1

Ultra High Bond Clear

The UHB Series are Ultra High Bond tapes. The UHB1 is a clear gel core type tape supplied on a red liner. The UHB tapes are structural tapes owing to the ultra-high bond adhesive throughout the core. It is a highly versatile general purpose ultra-clear tape.

(33M) 12mm

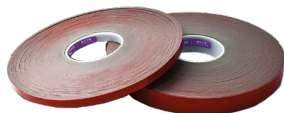

CODE: VIN-MM-UHB1-CLEAR-12MM

CODE: VIN-MM-HF3-BLACK-FOAM-12MM

(33M) 24mm

CODE: VIN-MM-HF3-BLACK-FOAM-24MM

The Edge Finisher - 90 degrees

CODE: VIN-SO-250-CG90

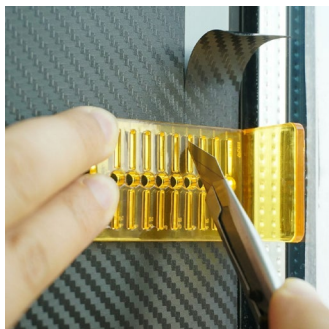

Clever 90 degree mini ruler for perfect edge finishing. Skilfully marking, cutting and finishing edges and corners is not always an easy task. Especially when all edges and corners have to be uniform. With these clever guides, this is a piece of cake. Place the mini ruler in the desired corner or edge and make exactly parallel cuts or markings.

Ideal for small areas and helps you cut edges with precision.

Handy little foldable squeegee for pressing into small seams and gaps. The trapezoidal shape provides additional possibilities in the corners.

Marking off with precision; this is handy: there is a 5 mm gauge on the flat strip and a hole every 5 mm. Place your pencil or marker there and then, draw a perfectly parallel mark.

Cutting perfectly parallel and straight; next to the holes are slots to insert your knife. Now easily cut each straight and parallel in a single movement.

5-Way Tool

CODE: VIN-SO-150-035

Companion for holding window film adhesive film taut on windows at edges and corners during cutting. Use as a trim guide or wrap in paper towels and use as a bump tool.

SOTT® Goliath Magnet - Extra Large

CODE: VIN-SO-150-MM883

Temporarily holds surplus area of film in place, which frees up your hands while you work on the area being wrapped.

SOTT Mounting Magnetic

CODE: VIN-SO-150-MM882

These small but strong magnetics have more than 7.5kg of pull! Sold individually.

SOTT Cutting & Contour Tape

This 6mm and 12mm plastic tape is a revelation for every fitter. Easy to stretch and shape, does not leave adhesive residue.

Quite thick, so doesn't tear or break easily. Cutting Contour Tape is ideal for: Defining working lines on curved or wedge shaped cars. This will create a fixed working line that will follow the form of the car. Use this line as a reference for positioning your sign to ensure that it is visually correct.

Establish cutting lines - If needs to be cut to follow a desired form then Cutting Contour Tape is the ideal solution. First, use the tape to create the desired form, and then simply cut carefully along the tape.

Defining simple working lines before starting the application of any lettering will enable the correct layout of text and logos.

PPF bulk installation with cutting tape - Use this tape to place the correct cutting lines. Then install the PPF as you normally would. Now cut through the PPF, and on top of the cutting tape. Pull the cutting tape from under the PPF while spraying water under the film. Result: nice cut and the paint is not touched.

6mm x 55M

CODE: VIN-SO-350-204

12mm x 55M

CODE: VIN-SO-350-2044

MiA Edge Cutter Tool

CODE: VIN-MM-MIA

The MiA Edge Cutter Tool is manufactured from durable, break-resistant material, and designed to make wrapping furniture and interior surfaces easier, and more precise. Perfect for use with Architectural Films, it helps achieve clean and consistent cuts.

With built-in cutting guides, the tool ensures uniform spacing for film overlaps, ideal when applying vinyl to tabletops, drawer fronts, or other detailed edges. Corner cuts can also be achieved with precision, allowing film overlaps to be neatly concealed for flawless, professional-grade results.

Metamark Wrap Gripper Magnets (Pair 2)

CODE: VIN-MM-GRIPPER-MAGNETS

A super-strong, large mounting magnet that is designed to hold up large sheets during installation.

Yellow 5 Safety Cutting Ruler

The SOTT® Yellow 5 Safety Cutting Ruler is an anti-slip cutting ruler that is made of solid aluminium. This tool is ideal for installers that need to cut accurate, straight lines without the ruler moving. Available in 500mm, 1000mm, 1550mm and 2000mm lengths.

500mm

CODE: VIN-SO-250-CB50

1000mm

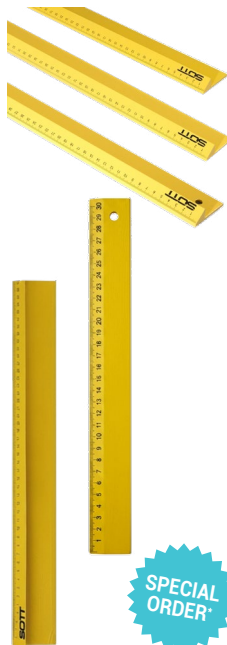

CODE: VIN-SO-250-CB100

CODE: VIN-SO-250-CB155

2000mm

CODE: VIN-SO-250-CB200

Handle for Yellow 5 Ruler

CODE: VIN-SO-250-CB001

Solid aluminium 9 cm handle with double-sided adhesive, to be mounted on the ruler.

Triangle Ruler

Anodized aluminium triangle with 90 deg angle. This stable aluminium ruler allows you to mark off and cut corners and holes with precision. A handy tool for cutting windows and interiors to size in advance on your cutting table.

310x310mm

CODE: VIN-SO-250-ML12

210x120mm

CODE: VIN-SO-250-ML8

High Tack Bond Primer - 1L

CODE: VIN-SO-600-P1000

High tack bond Primer is created to have the maximum adhesion on absorbent surface such as plaster or MDF board. The product must be diluted 1:1 with water.

**Cover Styl Primer+ Stick 40ml (empty)**

CODE: VIN-SO-600-PMR40

This Primer Stick is a handy tool that will assist with the application of Cover Styl Primer+ to edges and high stress areas prior to installing Cover Styl decorative vinyl. Cover Styl Primer Stick comes empty, will need to be filled with Cover Styl Primer+.

**Coverstyl Primer+ 250ml**

CODE: VIN-600-PMR250

Cover Styl® Primer+ is a solvent-based adhesion primer designed for use on non-porous surfaces and critical application areas such as edges, corners and high-stress zones where superior bonding is essential. It enhances film adhesion on surfaces including melamine, laminate, glass, metal, plastics, and painted finishes, helping to prevent lifting and ensure a durable installation. Drying time is approximately 15 to 20 minutes, with film application recommended within 24 hours of priming

**Coverstyl Primer+ 1000ml**

CODE: VIN-600-PMR1000

Lil Chizler

CODE: VIN-SO-150-033

Small and thin squeegee for small areas like the triangular windows, or for squeezing small air bubbles away. Also perfect to remove dirt and old adhesives from the rear window. Will not damage defrost liners on the rear window.

**Razor Blade Scraper Small - Plastic Body**

CODE: VIN-SO-300-003SM

A small, compact razor blade scraper made of durable plastic. The designed shape fits well in the hand and provides enough grip to apply force. Comes with a stainless-steel razor blade. Can also fit the Scraperite blades.

**Triumph MK-III Angled Super Scraper**

CODE: VIN-SO-300-015

Triumph MK-II is the ideal high-performance scraper for frequent and heavy-duty use on flat glass. The housing is made of soft rubber making it very comfortable to hold and preventing blisters. The bend provides the ideal angle for effective scraping without having to rotate/tilt arm or wrist.

**Replacement Blades**

CODE: VIN-SO-300-002

The Wide Gripper -100mm

CODE: VIN-SO-300-012

Extra wide plastic grip scraper. The big brother of the Scraperite family. This 100mm wide scraper helps you tackle the toughest jobs by quickly removing adhesive residue, dirt, etc. from flat surfaces. The large polycarbonate scraper can be used on both sides and does not scratch surfaces. It's also easy to put in place and remove without fear of hurting yourself.

The Giant Gripper is entirely made of plastic, so it will never rust or oxidize. An indispensable tool for any signmaker, window tinter, painter or cleaner.

Replacement Blades

CODE: VIN-SO-300-014

OLFA® XSR Extra Heavy Duty Scraper 300mm

CODE: VIN-SO-300-051

The Olfa® X-Design Extra Heavy Duty Scraper is built for the toughest of scraping jobs. With a contoured handle and rubber grip that moulds to your hand for comfort and an integrated steel strike plate that removes even the most stubborn materials, this scraper is designed for functionality and comfort. Blade width is 100mm.

**OLFA® 300-GSR - Glass Scraper**

CODE: VIN-SO-300-GSR-2

The Olfa® 40mm Compact Glass Scraper is a durable, multi-purpose mini scraper suitable for tight, narrow spaces and curved surfaces. The handle is made of light, strong and reinforced fibreglass, with an enveloping non-slip grip that provides the user with a comfortable grip and better control over the blade. 6 spare blades in the body.

**Soft Surface Scraper Combo**

CODE: VIN-SO-300-006-CMB

New type of holder for better grip with 6 Scrapers included. For removing adhesive residue and hard bits of dirt from surfaces can be a problem. Scouring pads, blades and metal scrapers can cause scratches. That is why Scraperite's orange scrapers are a godsend. This small plastic holder has an orange polycarbonate razorblade and does not scratch.

**Big Gripper COMBO set with 3 x curved + 3 x straight Orange Blades**

CODE: VIN-SO-300-011CMB

Combo includes: The Big Gripper, 3 x Scraperite straight blades, 3 x Scraperite curved blades.

Scrapelite Blades

The Scrapelite refill blades for the Big Gripper are made of flexible plastic that is ideal for use on painted and delicate surfaces. The orange ones are of soft firmness, while the black is of medium firmness. Sold in packs of 100 and 10.

Scrapelite Orange Blades 100pk - Soft
CODE: VIN-SO-300-009

Scrapelite Orange Blades - 10pk - Soft
CODE: VIN-SO-300-009-10PK

Scrapelite Black Blades - 100pk - Hard
CODE: VIN-SO-300-009BL

Scrapelite Black Blades - 10pk - Hard
CODE: VIN-SO-300-009BL-10PK

REFILL for The Wide Gripper - 25 blades
CODE: VIN-SO-300-014

Replacement blades for the Wide Gripper. Blades are 100mm wide and come in packs of 25.

Scrapelite Blades - Curved Orange

CODE: VIN-SO-300-009C

The familiar Scrapelite ORANGE blade but with special curved cutting edges. The curved scrapers are rounded on two sides for easier scraping. The scrapers are also slightly bendable so you can choose whether to press the scraper flat on the substrate or just the scraper edge. Also ideal on concave surfaces. Comes in packs of 30.

Olfa Stainless Steel Scraper Blades 30 pack

CODE: VIN-SO-120-GSB-1S

Pack of 30 blades. Sharpened on both sides. 120mm x 25mm. Specifically designed for the toughest scraping jobs without scratching the glass surface. Double ground cutting edge for superior sharpness and durability. Removes with ease: paint, vinyl, silicone, glue, dirt from ceramic or glass cooktops, stickers, paint residue, varnish, all types of sealants, mortar, excess adhesives and grout, etc.

Triumph MK-III Angled Super Scraper - 25 Refill Blades Super Sharp

CODE: VIN-SO-300-002

Refill blades for the Triumph MK-II Angled Super Scraper. Super sharp, double-sided blades, 15cm wide, 25-piece pack.

Strip-IT® Smooth Eraser Disk

CODE: VIN-SO-300-010

The Strip-IT® Eraser Disk is your ideal tool for removing hard to remove stickers, adhesive films, decals, labels, striping etc. from cars, motorcycles, and glass windows. It also easily removes adhesive residue. Made from specially formulated rubber. 90mm diameter x 15mm.

STRIP-IT Serrated Eraser Disk

CODE: VIN-SO-300-010T

The Strip-IT® Eraser Disk is your ideal tool for removing hard to remove stickers, adhesive films, decals, labels, striping etc. from cars, motorcycles, and double-sided tape. It also easily removes adhesive residue. The special serrated shape keeps the disk cool during use and promotes easy handling. 102mm diameter x 25mm.

SOTT-5 inch Squeegee Hand Grip (127mm)

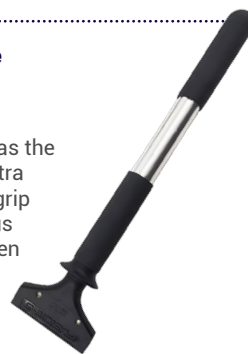

VIN-SO-150-042S

An exceptional hand grip which offers grip reducing fatigue from squeegee work during those long applications. Extra comfort is provided by the anti-slip foam coating on the actual gripping area. This is the ultimate hand grip for squeegees used for the wet application of film. Used with the SOTT MAX Blue squeegee.

**Fusion 5 inch Stretch Handle**

CODE: VIN-SO-150-042L

Unique 130mm wide squeegee holder as the standard Fusion-series, but with an extra long stainless steel grip. Because the grip is no less than 400mm long, an enormous amount of pressure can be applied when squeegeeing window films. This makes installing less tedious and is ideal for large windows.

**SOTT 5 inch Short Grip Handle**

VIN-SO-150-042SM

Same as 150-042S Hand Grip except shorter handle. This strong heavy-duty handle is ideal for use in small areas where space is limited. Often the handle is too long and you can't rake properly because the back piece gets stuck.

**Unger Pro Handle Handgrip**

CODE: VIN-SO-150-017

90mm wide Stainless-steel handle from Unger, features a spring mechanism for quick blade changing. Can be used with the SOTT Max Blue squeegee.

**Fusion 8 inch Hand Grip**

CODE: VIN-SO-150-043

200mm (8") wide Fusion handle with an exceptional hand grip, extra wide, manufactured from high quality, unbreakable plastic for use with special squeegees. This offers an improved and extended grip reducing fatigue from squeegee work during those long applications. Extra comfort is provided by the anti-slip foam coating on the actual gripping area. The curved form of this special smooth plastic hand grip prevents it from coming in to contact with when extra pressure is applied, so any risk of damage to your work is eliminated.

**The Knuckle**

CODE: VIN-SO-150-KN

Handgrip for Turbo Squeegees which is 110mm wide.

The great thing is that you don't have to put The Knuckle aside to free up your hands to pick something up. While you have The Knuckle in your hand, you can also pick up window film, peel off the protective sheet, spray the film and position it and then start squeegeeing with this Knuckle! All this while you still just had it in your hand.

Power Handle - 15S + Shaped Squeegee (150mm)

CODE: VIN-SO-150-055-S

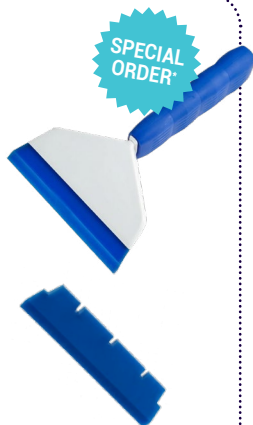

150mm shaped squeegee blade - shaped squeegee blade with a Power Handle.

Go Doctor Blue

CODE: VIN-SO-150-061

The Go Doctor Blue window squeegee features an "i-beam" handle construction which fits comfortably in your hand. This handled squeegee is perfect for high performance and thicker films. This Blue Go Doctor blade is the firmest of the options.

**Go Doctor Blue Replacement Blade**

CODE: VIN-SO-150-061-R

Go Doctor Yellow

CODE: VIN-SO-150-062

The Go Doctor Yellow window squeegee features an "i-beam" handle construction which fits comfortably in your hand. This design provides greater efficiency and less fatigue.

This Yellow Go Doctor blade is the medium-firm blade and is perfect for windows of all kinds, paint protection, auto wrap installations and vinyl graphics. Replacement blade is 150-062.

**Go Doctor Yellow Replacement Blade**

CODE: VIN-SO-150-062-R

Time Saver Squeegees Squeegee

Designed to apply architectural films like Coverstyl on flat surfaces. For kitchen doors or small panels, doors or big panels we created 2 squeegees in 650mm and 1000mm. Replacement buffers available.

650mm

CODE: VIN-SO-150-CS65

1000mm

CODE: VIN-SO-150-CS100

SOTT® Omega

The SOTT® Omega squeegee unites all the features that a professional film installer can expect of a squeegee. It is made of a rubber / plastic composite that makes it stable and exerts good counter pressure when power squeegeeing. Available in two sizes; 100mm & 130mm.

100mm Squeegee

CODE: VIN-SO-150-LM10

130mm Squeegee

CODE: VIN-SO-150-LM13

**SpeedWing Lemon 160mm**

CODE: VIN-SO-150-079

Medium Squeegee. One side flat and one side curved. The curved edge is designed to encourage a finger or bubble to disperse outward which reduces the chances of a crease.

**CoverStyl Squeegee 130mm**

CODE: VIN-SO-150-CS13

Achieve smooth, bubble-free results every time with the Cover Styl 13cm Squeegee - the perfect tool for professional vinyl wrapping & surface covering applications. Designed for ease of use & consistent performance, this compact yet durable squeegee fits comfortably in the hand, allowing for precise pressure & control during installations. Also available in a felt edged option (SKU: VIN-SO-150-CS-13).

**Teflon Platinum - Firm**

CODE: VIN-SO-150-015PT

One side flat and one side curved. The curved edge is designed to encourage a finger or bubble to disperse outward which reduces the chances of a crease. 100mm

**Teflon® White - Hard**

CODE: VIN-SO-150-015WT

The Teflon® squeegee is extremely rigid and helps eliminate cupping. The Teflon® will not allow cyanoacrylates (superglue) as well as other industrial adhesives to adhere to its blade. 100mm

**The Contour Platinum Silver Squeegee - Hard**

CODE: VIN-SO-150-038

The Platinum Contour is a firmer card, with a built-in lubrication feature to prevent surface scratches. Perfect application in hard to access areas. This squeegee allows the film to be applied evenly under rubber sealing strips without damaging the film.

**Teflon Black - Flexi Soft**

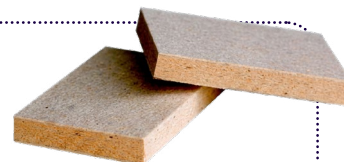

CODE: VIN-SO-150-016

Flexi but soft and heat resistant. The Black "Teflon" Hard Card is second to the White hard card in popularity. This card provides a little more flexibility than the White or the Gold, but it is stiffer than the Blue which makes it great for both flat and curved glass surfaces. 100mm

**SOTT FELT Squeegee**

CODE: VIN-SO-150-041

High quality soft material will not damage the surface of the film. Easily glides across vinyl films and painted surfaces. Lightweight makes it easy to use and store in smaller spaces. Do not use wet.

**SpeedWing Lime 210mm**

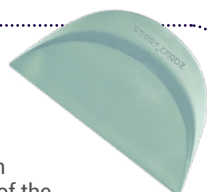

CODE: VIN-SO-150-077

Hard squeegee. One side flat and one side curved. The curved edge is designed to encourage a finger or bubble to disperse outward which reduces the chances of a crease.

**Smart Card Silver Squeegee**

CODE: VIN-SO-150-018

25% wider than a hard card, with a tapered tip, comfortable grip, dynamic flex, and thin squeegee edge is sure to make easy work of the toughest installations. 125mm

**Squeegee Grinder - Edge Renewal**

CODE: VIN-SO-350-210

This SOTT® Squeegee Grinder will sharpen and smoothen worn out, burred squeegees; meaning you can get extra life out of these, with no need to throw them away.

Metamark Squeegee Teflon

CODE: VIN-MM-TEFLON-SQUEEGEE

An ultra-smooth, Teflon compound, very hard squeegee. Ideal for paint protection film and other films requiring a scratch free application. Use straight from the pack, or apply your favourite felt edge. 100mm.

**Metamark Squeegee White Felt Edge**

CODE: VIN-MM-WHITE-FELT-SQUEEGEE

Supplied with a premium grade soft smooth felt edge, this is a go-to squeegee that gives the perfect blend of a soft plastic edge and scratch free edge. 100mm.

**Metamark Squeegee White Premium**

CODE: VIN-MM-PREMIUM-WHITE-SQUEEGEE

The Metamark Premium White Squeegee is a comfortable squeegee with a medium to hard compound. This squeegee is versatile and great when used with a Monkey Edge Strip or use as is with its precise edge. 100mm.

**Metamark Purple Squeegee - Hard**

CODE: VIN-MM-HARD-PURPLE-SQUEEGEE

The Metamark Hard Purple Squeegee is a hard compound squeegee for everyday use. It is suitable for the use of a variety of signs and graphics on flat or slightly curved surfaces. 100mm.

**Metamark Squeegee Soft White**

CODE: VIN-MM-SOFT-WHITE-SQUEEGEE

The Metamark Soft White Squeegee is an everyday squeegee with a soft pliable compound. Ideal for a wide range of sign and graphics. 100mm.

**Squeegee Metamark Felt Block**

CODE: VIN-MM-SQU-F

This felt block squeegee allows a very forgiving scratch free application of vinyl. A solid 12mm block of felt. Do not get wet.

**3M® Gold Squeegee**

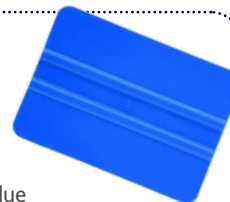

CODE: VIN-SO-150-3MPA-1

3M hard, very durable and suitable for general use. The legendary 3M gold squeegee is one of the most widely used accessories by professionals in the field. Designed for the installation of vinyl graphics, adhesive films, and wraps, it provides firm pressure for smooth application on flat or slightly curved surfaces. Its gold finish minimizes surface scratches, ensuring a clean, professional result.

**3M® Blue Squeegee**

CODE: VIN-SO-150-3MPA-2

This reusable squeegee-type applicator is constructed of durable vinyl. When hand applying film or premask, it is the perfect solution for smooth substrates. Blue Applicator is nylon reinforced to keep its edge and last longer than ordinary squeegees. 100mm.

**Avery Red Felt Edged Squeegee**

CODE: VIN-MM-SQU-AR-12

Supplied with a felt edge, this soft squeegee is a wrap professional favourite, for use around 3D curved applications on vehicle panels.

**Avery Blue Felt Edged Squeegee**

CODE: VIN-MM-SQU-A-12

Supplied with a felt edge, this blue medium hard squeegee is a wrap professional favourite, for use on flat or simple curves.

**The Hustler**

CODE: VIN-SO-150-090

4 in 1 squeegee that is cleverly designed shape to reach everywhere. The different sides make it extremely practical to do various jobs with it. Push wrap under rubbers of window frames or around roof racks without damaging the film.

Perfect for use as a cleaning tool, wrap a cloth around the squeegee and use it to easily get into any small narrow place that area.

It can also be used as a cutting guide squeegee for window frames. As the squeegee is smooth and solid, it is also good to use when installing rigid films such as architectural films.

You can use the rounded side of the Hustler to guide and turn the in a sharp corner without damaging the film.

Grip & Glide Orange - Soft

CODE: VIN-SO-150-068

Grip-n-Glide Orange for paint protection, vinyl graphics and car wraps. This squeegee features a sturdy construction with interchangeable blades. The blades conveniently and securely snap in and out of the uniquely shaped ergonomic body. The body is then covered in an ultra-comfortable handgrip that has a deep surface texture making this squeegee easy to use in wet or dry environments. Replacement blade is 150-068-R

**Grip & Glide Orange replacement blade**

CODE: VIN-SO-150-068-R

**Grip & Glide Yellow - Medium**

CODE: VIN-SO-150-069

Grip-n-Glide Yellow has been designed for window installation and features a sturdy construction with interchangeable blades. The blades conveniently and securely snap in and out of the uniquely shaped ergonomic body. The body is then covered in an ultra-comfortable handgrip that has a deep surface texture making this squeegee easy to use in wet or dry environments. Replacement blade is 150-069-R

**Grip & Glide Yellow replacement blade**

CODE: VIN-SO-150-069-R

The Pink Shaved Squeegee

CODE: VIN-SO-150-PP3

The Pink Shaved 100mm squeegee is a must-have for every PPF installer! This squeegee is ideal to install PPF on bonnets, roofs, mudguards and doors. Because the squeegee is medium stiff, but has a thin soft edge, it follows the contours of the surface with the right pressure, thus removing the moisture under the film. The squeegee tapers gradually at the edge, making it flexible.

**Metamark PPF Squeegee**

Flexible TPU squeegees for PP or Window Film installation. Medium firmness confirms well to body panels. Profiled leading edge. Available in two sizes, 65mm or 100mm width, 75mm height.

Black 65mm

CODE: VIN-MM-SQU-PPF1

Black 100mm

CODE: VIN-MM-SQU-PPF2

**3M Wet or Dry Rubber Squeegee**

CODE: VIN-SO-150-PP2

70mm x 105mm squeegee is made of very soft rubber and follows literally any shape or contour of the surface. This squeegee is designed to move away the moisture under the PU. Because of the softness of the touch, the squeegee pressure is lower and it does not damage the film.

**Metamark Ape Duo Purple PPF Squeegee**

CODE: VIN-MM-SQU-APE-DUO

Metamark APE Duo Purple is a professional squeegee for use with Metamark M-PPF® Paint Protection Films. Designed by APE, this trapezoidal squeegee has a two-layer construction. The top surface provides stability, while the base layer is a soft compound. It is designed to be comfortable to work with and give flexibility, and for use with wet application. Edges provide 30 deg, 45 deg and 90 deg degrees to allow different pressure to be applied during squeegeeing. The Metamark APE Duo is the perfect application partner for use with Metamark APE Slip Solution.

**The Small Shaped One**

CODE: VIN-SO-150-PP4

50mm x 80mm medium hard trapezium shaped squeegee is ideal for convex and concave surfaces. Think of bumpers, mirrors, spoilers, headlights, etc. The trapezium shape allows you to use the squeegee on both sides. The sharp edge is very soft, so it follows every shape without problems and pulls the moisture out from under the very easily and nicely, graduating at the edge, making it flexible.

**THE HYBRID - A Multi-talent 2 squeegees in One**

This unique polyurethane squeegee consists of two layers, each with a different firmness. The orange side is softer, and the blue side is firmer. This squeegee angles on either side also, giving full control over the level of pressure during installation.

**130mm**

CODE: VIN-SO-150-048

200mm

CODE: VIN-SO-150-049

**The Hustler**

CODE: VIN-SO-150-090

4 in 1 squeegee that is cleverly designed shape to reach everywhere. The different sides make it extremely practical to do various jobs with it. Push wrap under rubbers of window frames or around roof racks without damaging the film.

Perfect for use as a cleaning tool, wrap a cloth around the squeegee and use it to easily get into any small narrow place that area.

It can also be used as a cutting guide squeegee for window frames. As the squeegee is smooth and solid, it is also good to use when installing rigid films such as architectural films.

You can use the rounded side of the Hustler to guide and turn in a sharp corner without damaging the film.

Grip & Glide Orange - Soft

CODE: VIN-SO-150-068

Grip-n-Glide Orange for paint protection, vinyl graphics and car wraps. This squeegee features a sturdy construction with interchangeable blades. The blades conveniently and securely snap in and out of the uniquely shaped ergonomic body. The body is then covered in an ultra-comfortable handgrip that has a deep surface texture making this squeegee easy to use in wet or dry environments. Replacement blade is 150-068-R

**Grip & Glide Orange replacement blade**

CODE: VIN-SO-150-068-R

**Grip & Glide Yellow - Medium**

CODE: VIN-SO-150-069

Grip-n-Glide Yellow has been designed for window installation and features a sturdy construction with interchangeable blades. The blades conveniently and securely snap in and out of the uniquely shaped ergonomic body. The body is then covered in an ultra-comfortable handgrip that has a deep surface texture making this squeegee easy to use in wet or dry environments. Replacement blade is 150-069-R

**Grip & Glide Yellow replacement blade**

CODE: VIN-SO-150-069-R

Tail Fin - Green

CODE: VIN-SO-150-022

Designed for installation behind brake lights - soft and flexible. This special tool is designed to make installing window around the third brake light easier. It pushes out moisture and keeps it out with pressure that holds down the edges behind that bothersome third brake light. It has an arched, curved body that gets behind the brake light to apply the constant pressure required to keep moisture from seeping back, thus allowing the adhesive to grab. Designed with two holes in the body of the tool for a better grip.

SPECIAL ORDER*

The Bulldozer II

CODE: VIN-SO-150-021

Allows you to get into those hard-to-reach areas, such as behind speakers, brake lights, low angles, and rear windows. 150mm blade.

SPECIAL ORDER*

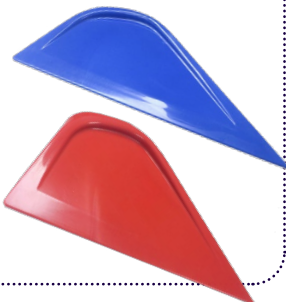

The Conquerer

CODE: VIN-SO-150-008S

Nothing beats the original Conquerer. This squeegee is the favourite per excellence with experienced car tinters because it is the tool of choice to mount window nicely in the dot matrix (grids).

**Little Foot**

The Little Foot squeegee fits comfortably in your hand, and features an angled, long-reach tip that gets behind gaskets and rubber seals quickly and easily. Little Foot's pointed tip lets you squeegee in tight spaces while keeping a firm grip on the tool.

**Blue 150mm Squeegee - Soft**

CODE: VIN-SO-150-072

Red 150mm Squeegee - Medium

CODE: VIN-SO-150-073

Sofline Green Turbo 125mm

CODE: VIN-SO-150-003GR

This green polyurethane squeegee is ultra soft and flexible, and fits well in hand. Specially designed for wet mounts. Due to its enormous flexibility, it is ideally suited for touching up smooth films such as PPF, cast films, window films, etc. on especially round, curved and arched shapes.

**Softline Yellow Turbo**

The Yellow Turbo squeegee has a white plastic tube that provides good grip. The PU blade is firm yet very soft when used during wet application. It follows every contour of the surface you're working on. Perfect for the first squeezes when positioning the film. Available in three sizes.

125mm

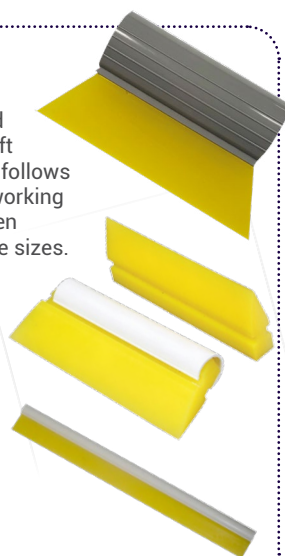

CODE: VIN-SO-150-003BT

140mm

CODE: VIN-SO-150-003

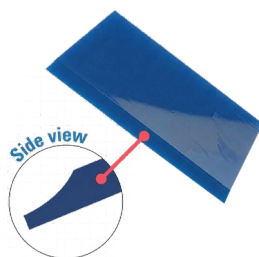

480mm

CODE: VIN-SO-150-001

**SOTT Max Angle**

CODE: VIN-SO-150-006S

The SOTT Max Shaped 130mm trapezium shaped squeegee. These run into a point, making it easier to push moisture away from edges and corners. Due to the combination of stiffness and flexibility, the squeegee gives an enormous pressure during squeegeeing, so moisture can often be pushed away in one go. Especially for hard windows and safety/security films on flat glass.

Side view

SOTT® MAX Blue Beveled Edge Squeegee - 130mm

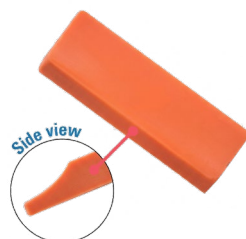

CODE: VIN-SO-150-006

The SOTT® Max is the ultimate squeegee for wet applications since no other squeegee can rival it for removing moisture under the film. Perfectly use for thick and stiff films, like safety films, solar window films and laminated digital print films.

**The Orange Crush 130mm**

CODE: VIN-SO-150-050

130mm wide Orange Crush is a harder polyurethane squeegee, that is slightly stiffer than the Blue Max. This makes it the perfect allrounder. This squeegee is ideal for removing moisture from beneath a variety of films including window, polyester laminate, thick safety/security films and even graphics covered in application tape.

The Hustler

CODE: VIN-SO-150-090

4 in 1 squeegee that is cleverly designed shape to reach everywhere. The different sides make it extremely practical to do various jobs with it. Push wrap under rubbers of window frames or around roof racks without damaging the film.

Perfect for use as a cleaning tool, wrap a cloth around the squeegee and use it to easily get into any small narrow place that area.

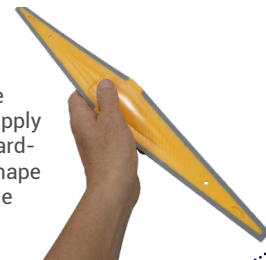

It can also be used as a cutting guide squeegee for window frames. As the squeegee is smooth and solid, it is also good to use when installing rigid films such as architectural films.

You can use the rounded side of the Hustler to guide and turn the in a sharp corner without damaging the film.

**Yellow Reach Wing 430mm**

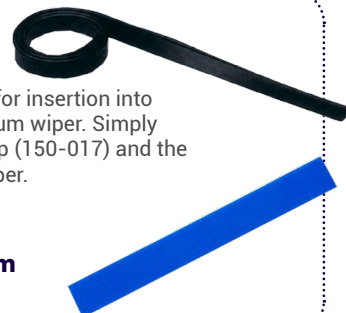

CODE: VIN-SO-150-083

The Yellow Reach Wing is a squeegee designed especially for windows, to apply the best possible pressure in small hard-to-reach areas. The slightly curved shape makes the squeegee sturdy and stable for applying pressure.

**Rubber Blade 200mm**

CODE: VIN-SO-300-RTU-20-S

Replaceable soft rubber blades for insertion into Unger stainless steel or aluminium wiper. Simply slide both in the Unger Hand Grip (150-017) and the rubber blade clamps into the wiper.

**Power Max Blade 200mm**

CODE: VIN-SO-300-PM20-S

Shaped Squeegee Replacement

CODE: VIN-SO-150-055R-S

This squeegee is designed for the PowerHandle-15S and 15B and can be easily mounted with 5 crosshead screws. This replaceable squeegee has a length of 40mm x 150mm wide and is therefore stiffer than for example the Blue Max or Orange Crush.

**Squeegee I**

CODE: VIN-SO-400-010

A handy tool for every professional fitter. For both car wrapping and window applications. Using this thin smooth plastic spatula, can be worked in to the smallest corner and the narrowest of gaps without fear of damaging the film. Film can now easily be applied to the bumper seams, rear lights or roof rubbers.

**Power Handle - 15S + Shaped Squeegee (150mm)**

CODE: VIN-SO-150-055-S

150mm shaped squeegee blade - shaped squeegee blade with a Power Handle.

**SOTT Yellow Contour**

CODE: VIN-SO-150-031S

A unique soft squeegee specially shaped to easily push into difficult corners. The SOTT variant is in between the original Yellow Contour and Green Contour in terms of stiffness. 155mm x 85mm

**The Contour Yellow**

CODE: VIN-SO-150-031

Smooth squeegee for perfect application of window film and car wrap film in hard to access areas. This squeegee allows the film to be applied evenly under rubber sealing strips without damaging the film. This is an invaluable squeegee for the true professional.

**Squeegee II**

CODE: VIN-SO-400-009

This handy tool is ideal for lifting the seals so that the film can easily be applied underneath. The Squeegee-2 is made of smooth plastic and is thin enough to avoid the seals being opened too much or getting damaged. This tool makes the application of under door trims, window and roof seals a breeze.

SOTT Roll Support

Heavy duty anodized aluminium dispenser with black coated steel side plates. Perfect for application tape or unwinding rolls of window and vinyl. Specially made for rolls of vinyl with a 3 inch core.

1320mm

CODE: VIN-SO-SRS-132

1620mm

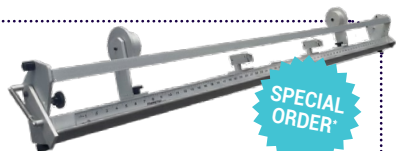

CODE: VIN-SO-SRS-162

SPECIAL ORDER*

The Handler for max 1820mm rolls

CODE: VIN-SO-500-FH72

SPECIAL ORDER*

Simple straight and angled cutting of window films with this rigid aluminium frame. The ideal solution for on-site cutting and cut 2 or 3 pieces at the same time, perfectly straight!

Simply place your roll of between the holders and pull the vertically down between the blade holders. Now fold down the special clamping bracket against the and now cut your desired size horizontally against the guide. The clamping bracket ensures that the film does not fall to the ground. Now you can pull any piece you cut out from under the bracket without the rest falling.

Spare Blades for Handler

CODE: VIN-SO-120-FH

Spare blades for use in the cutting heads of the Handler. Supplied in a special dispenser. 20 pack.

SPECIAL ORDER*

Handler Extra Knife

CODE: VIN-SO-FH-XKNI

Additional Knife for The Handler to do multiple cuts at once.

SPECIAL ORDER*

Cutting Knife Holder for Box

CODE: VIN-SO-100-030

Turn your box into a cutting dispenser and cut your directly from the box.

SPECIAL ORDER*

Seal-It Pen: Edge Sealer

CODE: VIN-SO-400-007

The SOTT® SEAL-IT PEN contains UV blocker for a fast drying, long lasting edge seal. The SOTT® SEAL-IT Pen is compatible with all type of films, simply follow the instructions that are included with each SOTT® SEAL-IT Pen for your specific application.

SOTT Speedclip

CODE: VIN-SO-500-020

The SOTT® Speed clip is made from a soft flexible plastic with a special finger recess allowing you to simply slide it along the roll without damaging the film. The clip then closes securely around the film holding the roll together.

SOTT® Wrap Tweezer-I - Flat, Round Nose

CODE: VIN-SO-350-311

The stainless-steel Wrap Tweezer-I has a special flat round nose that can hold vinyl without the risk of tearing it while pulling around corners. Cut the vinyl to size, heat it up and guide the vinyl around corners using the rounded tips.

SOTT® Wrap Tweezer-II - Curved End

CODE: VIN-SO-350-310

A Stainless-steel tweezer with curved ends. Both points are sharp and fit well together so that vinyl can be easily picked up within cracks, seams, headlights, and taillights, etc. Ideal for deep car crevices as it is extra thin and precise.

SOTT® Tweezer - Sharp Point

CODE: VIN-SO-350-201

This coated pair of tweezers has a sharp pointed nose that curves on the outside while being flat on the inside. Due to the curved shape of these tweezers, the outside won't stick to vinyl.

Weeding Tool

CODE: VIN-SO-350-202

This clever, pen-like gadget has a rounded dome point, which makes it easier to peel without damaging the liner or backing paper.

Staedtler Glasochrom

Staedtler Lumocolor® Non-permanent Omnicolor Water-soluble dry marker in Black or WhiteWood-cased water-soluble hexagonal pencil for opaque marking on almost all surfaces, e.g. paper, plastic, metal, glass, wood, leather, and stone. Can be wiped off many smooth surfaces. Sold individually or 12 per box.

Black Pencil - Permanent

CODE: VIN-OMNICHROM-BLACKPENCIL-NON-PERM

White Pencil - Permanent

CODE: VIN-OMNICHROM-WHITEPENCIL-NON-PERM

Pressure Spraybottle SOTT®**- Hozelock - 1.25ltr**

CODE: VIN-SO-550-4075

SOTT® Hozelock Pressure Spray Bottle is a high-quality pressure sprayer with 1250ml capacity, for the moisturizing of surfaces and film. Not to be used with aggressive liquids or degreasers.

**SOTT Spray Pressure Bottle 7lt**

CODE: VIN-SO-550-4007

Large pressure sprayer (7l) with a 5 litre liquid capacity. The large reservoir is easily pressurized, and the long hose and special trigger allow you to spray large surfaces prior to applying window. In other words: you can simply carry on with the job in hand without having to walk back and forth to the tap. The wrist cramp that often results from holding the trigger of ordinary sprayer bottles is a thing of the past as well.

**Soak 'Em Trigger**

CODE: VIN-SO-550-WSE

Lightweight and handy trigger made of durable plastic. Intended for high-pressure sprayers such as The WaterBomb (550-WB10).

The SOAK'EM trigger is only 21 cm long, making it very handy during use.

Connection for hose: ¼ thread inside.

**Water Hose Reinforced - 8M**

CODE: VIN-SO-550-WSBS

Flexible soft water hose with a length of 8.3M. Specially designed for high-pressure sprayers such as The WaterBomb (550-WB10). This water hose with an internal thickness of 6 mm, has a reinforced inner core so it can have a pressure of 15 bar. This high quality hose is resistant to pinching, kinking, oils and mild acids and salts.

**Fineline Blue Tape 3mm x 33M**

CODE: VIN-FINE-BLUE

A high quality self adhesive tape for PPF installation. The tape helps prevent the blade from touching the bodywork, and can be removed without leaving any residue. An alternative method is to use the tape to guide a free hand cutting edge, by applying the tape on top of the PPF film. It is always advised to only score PPF film and not cut through the film onto the vehicle.

**SOTT Waterbomb High Pressure Sprayer**

CODE: VIN-SO-550-WB10

The SOTT Waterbomb is the ultimate high-pressure sprayer and is for every window and PPF installer. No more messing around with small pressure sprayers that waste time needing to be re-inflated all the time.

The Waterbomb can be pumped up to 6 bar with a hand pump or with a compressor giving you perfect pressure to spray the moisture on to your surface for the whole of your working day.

The barometer indicates how much pressure you have left in your tank. The inner casing is made of coated steel which will not rust and is not sensitive to chemicals and acids. The Soak'Em trigger is compact and easy to handle which makes it easy to use in small spaces. The special ultra-flexible hose is reinforced on the inside so that kinking, flattening or being run over is not a problem.

**SteelMaster High Pressure Sprayer**

CODE: VIN-SO-550-WBE

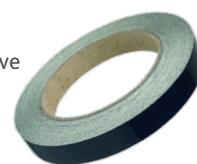

10 L tank with manual inflation, comes with a pressure gauge and a 5M spiral hose.

The SteelMaster high-pressure sprayer is the little brother of the SOTT WaterBomb high-pressure sprayer (550-WB10).

This high-pressure sprayer is easy to pump up to 6 bar with the handle. The built-in pressure meter shows how much pressure the tank contains. With the red button, you can vent the tank at once. The trigger has a screw-on brass nozzle.

**Edge Sealing Tape**

Edge Sealing Tape is a good alternative when sealing the edges of window films with silicone sealant is not possible or desirable. This tape prevents corrosion, deterioration or loosening due to moisture or dirt getting under the film. It is also good to use for sealing edges of print films, car wrap films, etc.

**Black 15mm x 25M**

CODE: VIN-SO-400-011

Clear 15mm x 25M

CODE: VIN-SO-400-011C

Toolbag Mini with Belt

CODE: VIN-SO-400-255

The SOTT® Tool Bag Mini is ideal for installers who only need to carry a few different tools for their installation. It has 3 compartments on the front and a hidden compartment on the back. There is also a loop to attach a tape measure. 130mm wide, belt included.

Metamark Wrap Tool Belt

CODE: VIN-MM-WTB

Metamark Automotive branded Tool Belt for the Wrap or PPF professional. One large compartment and 6 side pockets. Highly durable black synthetic fabric, with adjustable strap.

SOTT® Professional Toolbag

CODE: VIN-SO-400-016S

The SOTT® Professional Tool Bag is a specially designed Tool Bag that allows installers to carry all their tools easily and efficiently. With multiple pockets, holders and compartments, the SOTT® Professional Tool Bag has a place for everything that any job could require. Excludes belt.

SOTT Tool Bag Bar: Tool Hanger

CODE: VIN-SO-400-022

This bar will give extra functionality to the Tool Bag, allowing the user to carry large plastic squeegees, window squeegees, spray bottles etc. by simply sliding it into the two existing loops.

Heavy Duty Belt

CODE: VIN-SO-400-017S

Special heavy-duty belt for the SOTT Professional Tool bag (400-016)

SOTT® Toolbox

CODE: VIN-SO-400-018S

A standard toolbox can't contain all the tools you need during a car wrap job. As always, you just don't have not enough compartments for your special knives and squeegees, bottles will topple over and so on. With 200% more space than other Toolboxes, The SOTT® Toolbox will enable you to carry everything you need easily to get any job done.

SPECIAL ORDER

SOTT Anti Cut Glove XL

CODE: VIN-SO-400-250

Every installer knows the problem; accidentally cutting your hand or fingers. When large sheets of film, cardboard or plastic panels have to be cut, there is a risk of accidentally cutting your fingers. This can be avoided using the Anti-Cut Glove. This glove is woven with a smooth fibre that prevents sharp objects from passing through it.

Pantone GP1601B Formula Guide Twin Pack

CODE: VIN-MM-PANTONE-SWATCH

Industry standard Pantone® Formula Guides, this two-swatch pack of Coated and Uncoated selections include 294 new trend colours. The colour reference tool used around the world for inspiration, specification, and accuracy in print and digital design. The guides also provide colour formulations for properly mixing all Pantone Spot colour inks.

SPECIAL ORDER

3M™ 101E Masking Tape

3M™ Value Masking Tape 101E is a smooth, multi-purpose crepe paper tape for room temperature indoor light-duty applications. It is ideal for non-critical paint masking, but also bundling, sealing, attaching, and other applications. Chamois color, rubber adhesive, thickness 0.12mm, this tape is designed for general use.

The cost-effective general purpose value masking tape for room temperature indoor light-duty applications is a chamois-colored, 0.12 mm thick adhesive tape with rubber adhesive for general applications (temporary attachment, masking for painting without burning, etc.). It provides conformability on irregular surfaces and around corners and is hand tearable for easy use.

25mm Masking Tape

CODE: VIN-MM-MT25MASK

50mm Masking Tape

CODE: VIN-MM-MT50MASK

The Guider

CODE: VIN-SO-150-100

The Guiders is an ideal, nifty tool that helps install wrap and window films in hard-to-reach places. With two metal rounded tips in different sizes. The hexagonal body in the size of a pen is ultra handy, enabling you to control the tips to place and guide them into a particular spot. It has a durable plastic housing with chrome-plated guides.

**The Factotum II**

CODE: VIN-SO-150-095

The Factotum-II is a handy mini oval with two usable sides. It guides film or vinyl in the smallest corner or kink, without destroying the material while pressing. The smooth rounded corners give you the perfect opportunity to guide the film or vinyl to where you want it. It is medium stiff and unbreakable.

**Nylon Pushstick**

CODE: VIN-SO-400-001

Sturdy plastic spatula for pushing back or easing of rubbers around headlights and roof trims when applying. Can also be used for positioning in hard to access areas.

**SOTT® The Finisher Application Tool**

CODE: VIN-SO-150-101

The finisher is the perfect tool for getting into hard-to-reach nooks and crannies. Press film into the smallest of places, using this pen shaped tool. With two different ends, each at a different angle, this is a must have tool to aid installation.

**Doorgasket Puller**

CODE: VIN-SO-400-002

Easy tool for tinting of cars, to get the door rubbers in their proper place again, when they were pushed down while tinting the window.

**The Squad - Application Tool (set of 2)**

CODE: VIN-SO-150-088

These specifically shaped tools are designed to apply film in hard-to-reach places. Whether it's for wrap, window, or interior film; these tools can be used in any situation. They are made of durable plastic so they will not break, fray, or buckle easily. The tips of these tools have sharp flat edges, making it easy to use in small gaps. These tips are also smooth, meaning your film will not be damaged.

**Metamark Wrap Gloves Grey (pair)**

CODE: VIN-MM-WGC

Lightweight grey cotton Wrap Gloves with Metamark branding. Seamless finish, and antistatic. One Size, supplied as a pair. Ideal for everyday use.

**SOTT® Application Glove**

Seamless application glove, made of elastic material. The white material helps you to check whether the surface and/or the vinyl is clean. Because of the perfect fit it gives you the necessary feeling that you need during your application work, especially when you deal with curved surfaces on cars. The glove is made of dust free material, so even touching the adhesive of the vinyl will not cause any Residue to be left behind.

**Large**

CODE: VIN-SO-400-253

X-Large

CODE: VIN-SO-400-254

Mirror Wrap Tool

CODE: VIN-SO-350-200

This is a must-have for all wrappers! Every wrapper knows that wrapping a mirror is not that easy. If the is not heated and stretched evenly, distortions, discolouration or glue streaks can occur. The Mirror Wrap Tool makes this all much easier. It is an 18mm thick plywood frame with a large handle and it has a very smooth finish.

**SOTT Stainless Hook**

Use this stainless steel hook to keep bonnets and tailgates of cars slightly open. Ideal for window tinters, car wrappers and PPF installers. Comes in two sizes; 170mm & 230mm.

**170mm**

CODE: VIN-SO-400-075

230mm

CODE: VIN-SO-400-076

The Corner Sealer

CODE: VIN-SO-400-CS01

Have you ever had small creases pop up at the corners of a wrap? Or small overlaps that lose their adhesion? This practical tool is intended for releasing the tension off installed film edges around corners. Simply push the hot flat head against the crease or overlap then 'melt' the film(s) together and/ or in place. This effectively fixes the edge of the film until it is tension-free in its new shape.

SPECIAL ORDER*

**Metamark Detailers Wheel Covers (set of 4)**

CODE: VIN-MM-WCV

Metamark Automotive branded wheel covers, provide protection of the wheel during detailing from overspray, plus prevents contamination during wrap or PPF Installation. Durable synthetic, one size fits [up to 21"] wheels. Set of 4.

SPECIAL ORDER*

**Emblem Removal Tool**

CODE: VIN-SO-350-203

Remove emblems without damaging them with these aluminium handles and strong braided wire. This handy tool makes this easy. A strong thin wire between two aluminium handles cuts the glue between the bodywork and the emblem without being damaged. Place the wire at the beginning of an emblem, against the glue (foam), pull the wire tight and now pull it back and forth. The wire slowly and neatly cuts through the glue layer. If necessary, you may also heat the emblem a little to soften the glue.

**SOTT® Infrared Meter**

CODE: VIN-SO-400-IR02

The SOTT® Infrared Meter measures the temperature of a surface, making it easy to tell if the object you are heating is hot enough. Simply aim the laser at the object you are heating up, and the gauge will immediately indicate the current temperature. 9 Volt battery included.

SPECIAL ORDER*

**Automotive MCX Premium Cast De-Chroming Tape**

MCX is a premium quality 100 micron cast film with MetaGlide® air release for easy application. The product can transform window surrounds, door handles and a wide range of other details including grills and splitters. Available in black gloss and black matt, and in a range of easy to handle sizes. Not suitable for rubber or silicone trim.

**Matt Black 25mm x 25M**

CODE: VIN-MM-DC-MCX11-25

Matt Black 50mm x 25M

CODE: VIN-MM-DC-MCX11-50

Matt Black 100mm x 25M

CODE: VIN-MM-DC-MCX11-100

SPECIAL ORDER*

SOTT Cutting & Contour Tape

This 6mm and 12mm plastic tape is a revelation for every fitter. Easy to stretch and shape, does not leave adhesive residue.

Quite thick, so doesn't tear or break easily. Cutting Contour Tape is ideal for: Defining working lines on curved or wedge shaped cars. This will create a fixed working line that will follow the form of the car. Use this line as a reference for positioning your sign to ensure that it is visually correct.

Establish cutting lines - If needs to be cut to follow a desired form then Cutting Contour Tape is the ideal solution. First, use the tape to create the desired form, and then simply cut carefully along the tape.

Defining simple working lines before starting the application of any lettering will enable the correct layout of text and logos.

PPF bulk installation with cutting tape - Use this tape to place the correct cutting lines. Then install the PPF as you normally would. Now cut through the PPF, and on top of the cutting tape. Pull the cutting tape from under the PPF while spraying water under the film. Result: nice cut and the paint is not touched.

6mm x 55M

CODE: VIN-SO-350-204

12mm x 55M

CODE: VIN-SO-350-2044

**SOTT Yellow Contour**

CODE: VIN-SO-150-031S

A unique soft squeegee specially shaped to easily push into difficult corners. The SOTT variant is in between the original Yellow Contour and Green Contour in terms of stiffness. 155mm x 85mm

Squeegee I

CODE: VIN-SO-400-010

A handy tool for every professional fitter. For both car wrapping and window applications. Using this thin smooth plastic spatula, can be worked in to the smallest corner and the narrowest of gaps without fear of damaging the film. Film can now easily be applied to the bumper seams, rear lights or roof rubbers.

**Squeegee II**

CODE: VIN-SO-400-009

This handy tool is ideal for lifting the seals so that the film can easily be applied underneath. The Squeegee-2 is made of smooth plastic and is thin enough to avoid the seals being opened too much or getting damaged. This tool makes the application of under door trims, window and roof seals a breeze.

**SOTT® Wrap Tweezer-I - Flat, Round Nose**

CODE: VIN-SO-350-311

The stainless-steel Wrap Tweezer-I has a special flat round nose that can hold vinyl without the risk of tearing it while pulling around corners. Cut the vinyl to size, heat it up and guide the vinyl around corners using the rounded tips.

**SOTT® Wrap Tweezer-II -Curved End**

CODE: VIN-SO-350-310

A Stainless-steel tweezer with curved ends. Both points are sharp and fit well together so that vinyl can be easily picked up within cracks, seams, headlights, and taillights, etc. Ideal for deep car crevices as it is extra thin and precise.

**The Contour Yellow**

CODE: VIN-SO-150-031

Smooth squeegee for perfect application of window film and car wrap film in hard to access areas. This squeegee allows the film to be applied evenly under rubber sealing strips without damaging the film. This is an invaluable squeegee for the true professional.

**3M® Knifeless Tape**

Precisely and efficiently cut through graphic film without a knife and without surface damage to create a clean line.

Finish Line – Used mostly for vehicle wraps. Conformable around bumpers, door handles, mirrors. 3.5mm width.

Design Line – Create striping, accents, and designs that rival using a knife or plotter. 5mm width. **Precision Line** - Ultra-fine, ultra-sharp filament cuts reflective, metallic, chrome, dry-erase, architectural films, overlaminates, paint protection film, plus many other vinyl and non-vinyl films. 5mm width

**Finish Line**

CODE: VIN-SO-350-206

Design Line

CODE: VIN-SO-350-208

**Precision Line**

CODE: VIN-SO-350-213

The 3M Knifeless Tape Precision Line, measuring 5mm x 50M, features an ultra-fine, ultra-sharp filament designed to deliver precise, clean cuts through a wide range of materials, including reflective, metallic, chrome, dry-erase films, Architectural Finishes, overlaminates, and paint protection films, as well as various vinyl and non-vinyl surfaces. Its patented design allows for easy manoeuvrability in any direction, making it ideal for following complex contours and curves with accuracy, while consistently producing sharper lines even on more challenging films.

Fineline Blue Tape 3mm x 33M

CODE: VIN-FINE-BLUE

A high quality self adhesive tape for PPF installation. The tape helps prevent the blade from touching the bodywork, and can be removed without leaving any residue. An alternative method is to use the tape to guide a free hand cutting edge, by applying the tape on top of the PPF film. It is always advised to only score PPF film and not cut through the film onto the vehicle.
