

TimberTech Decking Product Substitution

This form provides the necessary information to enable the substitution of a consented decking with PSP TimberTech decking as a minor variation. This document establishes that TimberTech supplied by PSP is a comparable material, to that consented.

Refer to [\[Reg. 3\(2\)\(a\) Building \(Minor Variations\) Regulations 2009\]](#).

Project Information:

Address	
Building Consent Number	
Plan Sheets* where product is specified	

Name of Decking Consented and Means of Compliance:

Name	
Type of Material	

Compliance Pathway:

CodeMark (Name & Number)	
Appraisal	
Other (Alternative Solution)	

Basis of establishing comparable material and compliance with NZ Building Code:

TimberTech decking products can be used as a substitute for timber decking or other consented products provided that: (a) The supporting framing has joists at max 400mm centres (or 300mm when diagonally fixed or used in commercial settings), (b) TimberTech fixings are used, and (c) Blocking between joists and all gaps and allowances are in accordance with the PSP TimberTech installation guide.

	Consented Decking	TimberTech Decking
MAX FLOOR LOAD		2 kPa
SUBSTRUCTURE		Timber deck to equivalent stiffness of framing provisions of NZS3604:2011. The framing meets the conditions above (a, b, c).
MATERIAL		Composite Terrain Edge Prime+ Advanced PVC Vintage

*Plan sheets referenced must be the relevant stamped documents.

	Consented Decking	TimberTech Decking
FIXINGS		Composite
		TOPLoc Screw
		CONCEALoc Hidden Fastener
		EDGELoc Hidden Fastener (Only for Edge Prime+)
		Advanced PVC
		Cortex Screw (incl. Material-matched Plug)
